

# INTEGRATED MANAGEMENT SYSTEM POLICY

[Quality, Environment, Occupational Health & Safety Management Systems]

We commit to providing superior products that are manufactured in a safe & healthy workplace with minimal environmental impact by:

- adopting a system oriented approach to manufacture and supply of our products & services
- setting measurable, appropriate and strategic quality, environmental and OH&S goals and objectives
- establishing policies to conduct our business activities effectively, while meeting applicable statutory & regulatory requirements
- continually improving our systems, practices and processes to ensure stakeholder satisfaction
- identifying and managing OH&S risks and environmental aspects & impacts
- ensuring consultation and employees participation in OH&S activities
- training and developing our employees
